

THE FACE OF
CUSTOM STORAGE

RVs, boats, jet skis, UTVs and motorcycles oh my! Lake Havasu City is a mecca for outdoor enthusiasts who want to get in their gear and go. Until now, there's been far more demand for storage facilities to house that gear than supply could keep up with. Enter Riverbound Custom Storage & RV Park.

Were a brand new facility that includes both luxury storage and RV park use, surrounded by BLM land that's calling for you to come explore and enjoy, with easy and immediate access to popular trails that take you directly to the water and beyond. We have a truly unique concept located in an Opportunity Zone, as each individual structure at Riverbound is custom built to your needs, including indoor and outdoor storage. Consider it your official man cave with an RV pad and full hook-up. Riverbound is ideally suited for folks that appreciate the recreational use that's all around it, who want to come out and experience desert and river fun.

Ryan Rodney, project developer, has always been a community and family guy. Rodney has been coming to the desert since he was a young child as the river life is simply a part of who he is. That was in large part why he chose Lake Havasu City to be the home of this unique and novel concept. Not only did he choose Lake Havasu, he chose to award a ton of the work to local companies as well. Project organizations include Pioneer Earth Movers, Tri-Suns Engineering, ABCO Builders, APL Surveying, Dean Appraisal, D.L. Campbell, WireFree Communications, Armor Fence & Masonry, Party Express, The Dustin Runyon Team, Mudsharks Brewery and Shugrue's Restaurant. Rodney has taken great pride in making sure the local economy is stimulated as much as possible by this grand development as he is a big believer in the future of Lake Havasu City and is fired up about bringing Riverbound Custom Storage & RV Park to life.
